

We Can't Hear You

Can you see me?

Can you see me on your computer?

Can you see me on your tablet?

Can you see me on your phone?

We can see you.

We can see you on our computers.

We can see you on our tablets.

We can see you on our phones.

But...but.... but.....

We can't hear you.

We can not hear you.

We can't hear you on our computers.

We can't hear you on our tablets.

We can't hear you on our phones.

We can see you.

We can see your mouth moving.

But we can not hear you.

We can't hear a thing.

Oh, no.

That is not good.

Let's try again.

Can you hear me now?

Yes, yes.

Now we can hear you.

We can hear you now.

We can see you and we can hear you.

There's just one thing.

Your voice is too loud.
