

Christmas Shopping

Christmas shopping was different this year.

Christmas shopping was very different from other years.

I did not drive in the traffic.

I did not visit the stores.

I did not shop with crowds of people.

No traffic, no stores, no crowds.

Shopping for Christmas was very different this year.

I did all of my shopping online.

I opened my laptop and turned it on.

I tapped the keyboard and did my shopping.

I searched on Google and Amazon Prime.

I looked at pictures of the gifts I wanted to buy.

I ordered gifts with my credit card and my debit card.

All the gifts were delivered to my house.

Federal Express, UPS, Amazon and the US Mail.

All the gifts were delivered right to my house.

It was so easy and so convenient.

No traffic, no stores, no crowds.

But, I miss the traffic, the stores and the crowds.

Christmas shopping was so different this year.

I tapped the keyboard and did my shopping.

It was so easy and so convenient.

But I miss the traffic, the stores and the crowds.
