

Looking for a Job

I am looking in the newspaper.

I am looking on my phone.

I am looking on my laptop.

I am looking everywhere I go.

I'm looking for a job.

Tell me, my friend, what do you know?

Tell me, my friend, where should I go?

I can work real hard.

And I can work real fast.

I need to find a job now.

And I need to make it last.

I'm looking for a job.

Tell me, my friend, what do you know?

Tell me, my friend, where should I go?

Over the years, I've worked here and there

And over the years, I've never been fired

I can work from morning until night.

I work long hours and never get tired.

I'm looking for a job.

Tell me, my friend, what do you know?

Tell me, my friend, where should I go?
