

It Is Raining

It is raining in the city today.

It is raining all over the town.

It's raining in the city today.

It's raining all over the town.

They say it will rain all day.

They say it will rain all night.

It is raining in the city tonight.

It is raining wherever you go.

It's raining everywhere you go.

It's going to rain all night.

They say it will rain all night.

I Have

I have nothing.

You have something.

She has it all.

We have a little.

They have a lot.

I had less.

You had more.

She had the most.

We had a little.

They had so much.
