

My New Computer

What's that?

What do you have there?

*This is my new computer.
I just bought it at Best Buy.*

It looks very small.

It looks very light.

*This computer is different from my last computer.
My last computer was a desktop.
This computer is a laptop.*

Why did you buy a laptop?

*I can take this computer with me wherever I go.
I can use it anywhere as long as the battery is charged.
And as long as I can get Wi-Fi.*

Why do you want to take it places?

*So I can finish projects for work.
So I can check my email.
So I can use the internet.
So I can watch videos on YouTube.*

I don't know.

I don't know if I like the idea of having a laptop.

Why is that?

Work, work, work. Everywhere you go. That's why.
