DREAM JOBS

Are you passionate about your work?

How important is it to love your work? Some people say it's the key to happiness. You spend so much time at your job that it has to be something you're **passionate** about. Other people say you have to at least feel **valued** in your workplace. Your dream job may still be a hobby, but the work you do must make a difference in people's lives.

Reading 2

DREAM JOBS

Are you passionate about your work?

Is it possible to adore your job no matter what you do? Your **attitude** toward your job can go a long way. A supportive **pest control** worker or **plumber** improves the quality of life of his customers. Feeling **challenged** on the job is important. A job that requires very little effort is hard to do for a long time. This is why some positions have a **high turnover**. Your night job may be a **stepping stone** to your future career.

Read

Reading 3

DREAM JOBS

Are you passionate about your work?

The people we work with have a lot to do with job satisfaction, too.

You may be passionate about the work but hate your boss or coworkers.

On the other hand, you may work from home but miss interaction with **colleagues.**

Reading 4

DREAM JOBS

Are you passionate about your work?

The money you earn on the job is also important.

Do you earn enough money to meet your basic needs? Is there a little left over for your savings and recreation account? If you think you deserve more than you earn, you may be miserable at work. Asking for a raise may be your solution. Some people get **stuck in a rut** at work. They don't leave a **dead-end job** because they get too comfortable.

Reading 5

DREAM JOBS

Are you passionate about your work?

Think back to when you were a small child. What was your answer when people asked what you wanted to be when you grew up? Some experts say that our childhood dreams are the jobs we are meant to do.

Reading Comprehension – Questions

DREAM JOBS

1. What does a person need to have in order to enjoy his or her job?
2. Why does the reading mention a plumber?
3. According to the reading, what may be a stepping stone to a future career?
4. What do some self-employed workers miss?
5. What advice is offered at the end of the reading?

Reading – locating information

The Architect

Take a walk down the street. What do you see?

You may see tall buildings with offices or apartments. You may see houses of different shapes and sizes. Perhaps you see stores or a school. Maybe you even see a museum.

All of these buildings had to be **designed** by an architect. An architect is someone who **designs** buildings. The architect plans out what the building will look like. That includes planning the building's size and shape. It also includes picking the **materials** the building will be made with. All of this has to be done while making sure that the building will be safe and will stay standing.

The architect thinks about how the building will be used when it's finished. They also have to think about the things that are around the planned building. Are there other buildings nearby? What do they look like? Is it a very windy area? What is the ground like? These can all affect the way a new **structure** is **designed**.

Architects put a lot of thought and hard work into the **structures** they **design**. Their work is all around you. So the next time you walk into a building, stop and thank the architect!
